NEW ADVERTISEMENTS

COMMERCIAL INTELLIGENCE

THURSDAY EVENING, OCT. 23.

BUSINESS was suspended from the 17th to the 21st instant for the Dewali holidays, so that practically the interval since our last weekly report only represents three days' movements. Nor have these been of noteworthy extent. The usual Dewali bargains, estimated this year at about 5,000 packages, have imparted a certain amount of activity to Piece-goods, but in all other branches trade remains dull to a degree. For Cotton the European demand is most limited, and Wheat is, if possible, even more difficult to move. Freights remain pretty much where they were; 12s. 6d. to 13s. 9d. being the ready quotations for Liverpool, and 17s. 6d. to 18s. 9d. for Continental ports. Money keeps easy. Sterling Exchange is weak. Government Paper steady. Shares dull.

Crop reports are in some respects less favourable than previously. The setting in of the north-east monsoon has been accompanied by, for this side of the country, unseasonable rains, which will no doubt prove beneficial for the cold weather crops, and will also do some good in parts of the Deccan where no rain had previously fallen. But the growing Cotton crop has suffered a little damage in some places and generally will be adversely affected. The plants are no doubt very backward—mostly three weeks to a month late—and not therefore liable to so much harm as they would ordinarily be at this season, but Cotton does not do with excessive moisture, especially late on, when it has always a tendency to develope wood at the expense of lint.

MONEY.—The last Bank of Bombay return showed no changes worthy of special notice, and the market remains in the same quiet easy state we have had to report for many weeks past. The local mills continue to absorb a considerable amount of capital in financing their surplus stocks of goods and yarns, generally estimated at between 40,000 and 50,000 packages, but other trade requirements are so small that this has little perceptible effect at the moment, nor is there any appearance of increased firmness this side of the new year. The Bank of Bombay's official minimum remains at 4 per cent. per annum.

EXCHANGE.—The transactions in sterling this week have been most limited in extent, the banks having only been open three days, and although slightly steadier at the close the general tone has been weak. At the time of writing our last weekly report closing quotations were 1s. 7 7-16d. for demand Bank Bills and 1s. 7⅞d. for three months' credits, but the day the steamer left the banks reduced their drawing rates 1-32d. When business re-opened on Tuesday they made a corresponding reduction in their buying rates, but this was re-covered again yesterday and has been maintained to-day, our closing quotations for ready paper being:—

Bank Bills on demand	1s. 7 13-32d.	per rupee
Do. Telegraphic	1s. 7 15-32d.	"
Do. Three months' sight	1s. 7 15-32d.	"
Credits do. do.	1s. 7 ¾d.	"
Do. Six months' sight	1s. 7 13-16d.	"
Francs Three months' sight	2·07	"
Do. Six do. do.	2·08½	"

At the lowest rates touched for private bills, 1s. 7 15-32d. and Frs. 2·06½ for three months' credits the banks were not very keen buyers, and only a small amount was placed, and for later delivery nothing under 1s. 7¾d. has been reported. This latter is still the quotation for a month ahead or even up to the end of the year, so that the real movement has been but slight.

The result of yesterday's biddings for Council drafts in London was the allotment of Rs. 15,40,000 at 1s. 7⅞d. for bills and 6 lakhs telegraphic transfer at 1s. 7 13-32d. which is indicative of anything but a strong demand for remittance to this side, and there is nothing in the present surroundings of the market to cause an early improvement.

GOVERNMENT PAPER.—No chan[illegible] taken [illegible] to the holidays, Rs. [illegible]16 being [illegible]notation, but a distinctly firmer feeling [illegible]pparent since, and the price has hardened [illegible]9], at which there are buyers to-day at the close. Fours-and-a-half have remained dull throughout at Rs. 102½.

SHARES.—The market since the Dewali has been dull and quite free from speculative move-ment. *Spinning Mill* shares close a trifle firmer than they opened, still our quotations in most cases show a decline of Rs. 5 to Rs. 10, and in the case of Dhurrumsey Rs. 25. The exceptions are Manockjee Petits, which have improved Rs. 2½, Coorla and Jawraz Balloo Rs. 7½ and Khandeish Rs. 15 per share. Press Companies are all firm and we note an advance of Rs. 5 in Mofus-[illegible]ntile and Sind, Rs. 15 in Broach and [illegible]d Rs. 25 in Fort. *Banks* are generally unalte[illegible], but we reduce our quotation for Bank of Bombay to Rs. 760. The *Miscellaneous* list exhi-bits few changes. Bombay Ice Co. are Rs. 2 higher at Rs. 106 and Rs. 99. Bombay-Burmah Trading Co. are Rs. 10 lower at Rs. 4,815. Flour Mills are all firm. Baptys at Rs. 60, Bombay at Rs. 55, and Western India at Rs. 25 premium. Alcock, Ashdown and Co. have receded to Rs. 20 premium.

IMPORTS.

PIECE-GOODS.—A fairly active feeling has characterised the market since last mail. The Dewali or new business year is always opened by a certain amount of business being done for luck, the extent of which is determined by, and is fairly indicative of, the prospects of the season. On this occasion the transactions are estimated at about 5,000 packages of imported and 4,000 packages of local goods, which is quite up to the average and promises well for the season. Prices have not undergone any change, supplies being too liberal and home advises too dull to admit of any improvement. Still there is no weak-ness apparent, and to all appearance we may calculate on a free off-take at the low figures now current.

TWIST.—The demand as in goods has been more active owing to the Dewali bargains and fair clearances have been made both from first and second hands at previous prices. Of an spinning about 3,000 packages be been sold at, in some instances, a trifle in favour of sellers.

METALS.—*Copper* not altered in value, but the mark is steady with a fair business passing. The same may be said of *Yellow Metal* which is going off somewhat more freely. *Iron* dull and slow of sale, but unchanged in value.

COALS.—No business of any importance has trapired since last mail. Shipments from home to the market are practically at a standstill receiving importers very indifferent about selling. Consumers hold off and endeavour to avoid paying current rates which are, for Cardiff Rs. 16½ to Rs. 17½, and for Davison's West Hartley Rs. 16½ to Rs. 17 per ton, alongside to arrive.

EXPORTS.

COTTON.—At the end of last week the advices from Liverpool assumed a stronger tone, and in sympathy therewith prices here hardened up Re. 1 to Rs. 2 per candy. The firmness, however, only lasted for three days, since when accounts have been dull in the extreme and rates have receded to their previous level, and in some cases Re. 1 less. So far as export business is concerned the temporary improvement brought no increase in the demand; on the contrary, some European firms availed of it to sell new crops for forward delivery, of which native dealers have again been the chief buyers. The transactions reported for the week sum up about 3,000 bales old and 1,500 bales new Cotton. Of the former Dholleras and Bhownuggers have been most dealt in at Rs. 176 to Rs. 185 for strict F. G. F. to about fully Good. Khandeish good fair to F. G. F. has also been bought at Rs. 155 up to Rs. 161, and a few transactions have been done in Ginned Dharwar and Westerns, but these growths, especially the latter, are now running into very small com-pass. In New Crops, for future delivery, good Bengals for December-January have been done at Rs. 145 to Rs. 146, good Broach for March at Rs. 210 to Rs. 211, good Omras for March at Rs. 181, and F. G. F. Jalgaum for February at Rs. 171 per candy.

From the usual figures it will be observed that receipts and exports continue light as compared with last year, and are likely to be so for the next three months, at least unless prices undergo a material reaction from the present depression, stocks of old Cotton being light whilst the new crop is late all round.

New Crop reports have worsened during the week. Heavy rains have fallen throughout the districts, and although the damage is less than it would have been had the plants been forward, there can be little doubt that prospects are not quite so favourable as they were. It is still too early to talk of out-turn in figures, but generally the outlook favours a smaller total yield than last year. According to present accounts Omras promise more, Broach about the same, Dholleras less. The Dharwar and Western districts so far report an almost total absence of rain, and unless they have a good fall shortly, there will be next to nothing of a crop.

The movements of Cotton to date show the fol-lowing comparisons with the two previous years:—

WHEAT.—Supplies continue fair, and the home markets are very dull, but rupee prices, owing to cheap freights and exchange, are well supported. SEEDS.—*Linseed* continues in strong request, and supplies are fairly liberal for the time of year. With freights and exchange as they are, rupee prices are supported at Rs. 6-5½ to Rs. 6-6 per cwt. The arrivals compare as follows:—

	1884.	1883.	1882.
For the week cwt.	51,267	20,971	33,374
Since 1st January "	3,850,474	4,029,390	2,766,719

RAPESEED is firm at Rs. 6-15 to Rs. 7-1 for old —of which stocks are insignificant—and Rs. 6-12 per cwt for new, April delivery, Yellow Guzerat.

GINGELLY is still only arriving in small quan-tities, and the late rains have been against the earlier descriptions. The inquiry is fair at Rs. 35 to Rs. 38-8 per candy, according to quality.

DEFECTIVE OR FAILING SIGHT.

THE sense of sight is so valuable that the importance of perfect and carefully adjusted spectacles can scarcely be overrated; although the wearing of single eye-glasses should be strictly avoided, we have the highest medical authority confirmed by daily experience, that imperfect glasses, together with the haphazard plan of selec-tion generally employed, are frequent causes of irremediable injury to the sight; and as no present economy can compensate for such a loss, it behoves all to be cautious how they are tempted to use the common pebble or glass spectacles now so generally sold.

For the guidance of those who are using pebble spectacles, it may be stated that when the pebbles are cut *against* the grain, and not polished on the principle which has been universally declared the most appropriate based on scientific research, they are injurious to the sight.

Unadvisable as the unnecessary wearing of spectacles undoubtedly is, the common notion that their use should be postponed to the utmost is proved beyond dispute to be a grave mistake.

Being in possession of all the optical instruments taken over by us from Dr. A. Menist, we are not only in a position to suit the eye sight to perfection, but to supply different accommodations for each eye which so frequently are needed.

OPENING OF PARLIAMENT.

THE QUEEN'S SPEECH.

LONDON, OCT. 23.

Parliament was opened to-day by Royal Commission. The Queen's speech, which was read by the Lord Chancellor, was as follows :—

I have summoned you to give further consideration to the great subject of Representation.

Most amicable relations continue to subsist between myself and all Foreign Powers.

The information I have received from the Soudan includes a painful uncertainty, but the energy, courage, and resource of General Gordon in the defence of Khartoum deserve warm recognition. My troops are advancing on Dongola, with the object of his rescue and security, and also of those who have faithfully co-operated with him.

I shall use my best efforts to promote further improvement in Egypt, supported by the Egyptian Government in the difficult financial condition of that country left by the failure of the Conference.

I regret that circumstances on the South-West Frontier of the Transvaal demand my vigilant attention. In conjunction with the Cape Government I have under consideration the means to secure a faithful observance of the Convention concluded with the Transvaal Delegates.

The operations in the Soudan will necessitate your making further pecuniary provision.

The introduction of a Bill for the extension of the Franchise is announced, but no other.

LETTER FROM MADAME BLAVATSKY.

(FROM OUR OWN CORRESPONDENT.)

MADRAS, OCT. 23.

Dr. Hartmann this morning received a letter from Madame Blavatsky, dated Elberfeld, Oct. 1, in which the following passages occur :—"As to your pamphlet it is as true and as much to the point as a reflection in the mirror. I have not yet seen the crushing evidence put forward by the worthy two. She (Madame Coulomb) may lie as much as she likes. Any letters she passes for my correspondence with her must be lies, or perhaps disfigured and interpolated passages. I never wrote to her anything I might fear."

AFFAIRS IN UPPER BURMAH.

(FROM OUR OWN CORRESPONDENT.)

RANGOON, OCT. 23.

The *Burmah Herald*, a vernacular paper hitherto supposed to be greatly under the influence of Upper Burmah officials, gives an account of matters upcountry, which shows that the English journals have not over-stated the case. The jail massacre and exposure of some 300 bodies for four days is confirmed. Dacoities are rife all over the kingdom, even in the vicinity of the capital. One town was captured by 400 dacoits, and at another place 500 of King Theebaw's troops had to retire from 600 dacoits. The greatest anxiety and fear are said to prevail throughout the whole kingdom, and trade has naturally decreased enormously.

THE appointment of Mr. Nowrozjee Jehangir Gamadia to be a delegate to the Parsee Chief Matrimonial Court of Bombay, in the place of the late Mr. H. C. Dady, appears in the *Government Gazette* of yesterday.

RAO SAHEB RAJARAM KHANDERAO will act as District Deputy Collector of the Panch Mahals from the date of Mr. Adarjee Jevanjee's retirement.

IT is notified in yesterday's *Government Gazette* that Musjid-bunder and Nicol-basin will be closed for the landing or shipment of goods, consequent on the dock extension works being undertaken.

TUESDAY, the 4th November, has been fixed for the election by the ratepayers of a member of the Bombay Municipal Corporation in the place of Mr. E. R. Freeborn, who has been absent from the city for more than three consecutive months.

MAJOR F. S. HORE, the unexpired portion of whose leave is cancelled, has been appointed to officiate as Commandant of the Bombay Volunteer Rifle Corps during the absence of Lieutenant-Colonel the Hon. L. H. Bayley on leave.

A MARINE COURT OF INQUIRY will assemble at the Fort Police Court to-morrow under the presidency of Mr. Cooper, to investigate the circumstances connected with the stranding of the B. I. S. N. steamship Punjab.

THE zoological department of the Victoria Gardens has just received an addition to the larger animals of the collection. A young panther has just arrived, a present from the Maharajah of Rutlam.

ACCORDING to a correspondent, the weather at Mahableshwur is at present delightful. Rain has fallen during two days in the present week, and the thermometer ranges from 65° to 70°. There are already a fair number of visitors on the hill.

COLONEL L. D'A. DUNSTERVILLE vacates the appointment of Collector of Hyderabad on succeeding to Colonel's allowance, and his place will be filled by Lieutenant-Colonel E. W. Trevor, who will act as Collector and Magistrate of the District of Hyderabad and District Registrar, Hyderabad. Major A. H. Mayhew will be appointed Deputy Commissioner of the Upper Sind Frontier.

MR. C. P. COOPER, the Chief Presidency Magistrate, yesterday dismissed the charge of criminal breach of trust preferred by Messrs. Latham and Co. against Walter B. Williams, their late manager, in respect of the sum of Rs. 4,000. In his decision Mr. Cooper commented on the manner of keeping the cash-book, and stated that he should not be justified in coming to the conclusion that the accused actually received the moneys that appeared deficient according to this book. He therefore declined to frame a charge against him. At the same time Mr. Cooper told the complainant it was his duty, if he believed that the accused had committed any criminal offence, to have the accounts examined by a competent accountant, and if it then appeared that the accused had received moneys for which he had not accounted he should again apply. It would, in that case, be his (Mr. Cooper's) duty to inquire further into the matter.

YESTERDAY'S *Government Gazette* contains the orders made by His Excellency the Governor in Council with regard to the establishment of local boards in the districts of Belgaum, Dharwar, Ahmedabad, and Khandesh. Seven taluka boards are to be established in the Belgaum district, in each of which there will be a preponderance of nominated over elective members. The district local board of Belgaum will consist of 19 members, ten of these being appointed by the Government, the remaining 9 being elected. There are to be 11 taluka boards and one district board in the Dharwar district, the latter consisting of 15 nominated and 14 elective members. In the Ahmedabad district the taluka boards will number 8 and the district local board will have 11 elective and 12 nominated members. Khandesh is to have 16 taluka boards, and its district local board will consist of 37 members, 19 being Government nominees.

THERE is reason to hope that the Simla Town Hall will now be speedily commenced. The debenture loan has been subscribed by the public, and the plans and proposals have been approved by the Punjab Government, subject to some not very important modifications. The Public Works Department have refused to allow the engineering staff now on the spot to interest itself in supervising the construction.

FROM the Bombay Presidency season reports for the week ended October 21, it appears that there has been good rain throughout the Deccan and Southern Mahratta Country, excepting at Kaladgi, where it is much wanted ; more rain also is required in parts of Poona, Sholapore, Belgaum, and Dharwar. The crops were slightly injured by excessive rain in parts of Nasik and Khandesh. Kharif harvesting rain showing and is in progress in most districts. There is fever in parts of fourteen districts ; cholera, small-pox, and cattle-disease in a few districts.

THE approaching Municipal elections at Calcutta should develope some excitement if the advice of the *Englishman* is followed. It appears that several European and Eurasian gentlemen will appear as candidates. Mr. Atkinson will come forward to represent ward No. 16, and Dr. Chambers ward No. 15, whilst Colonel Beresford Lovett has been asked to allow himself to be nominated as a candidate for ward No. 13. The chief hope of obtaining a proper representation of the wants of the town, says the Calcutta paper, not only as regards sanitary matters, but for many other purposes, is for as many Europeans as possible to be returned as members of the Corporation, for as long as the present Hindoo majority exists, so long will matters be allowed to stagnate as in former years.

SENTENCE of condemnation has been delivered by the Supreme Tribunal of Lisbon against Senhor A. A. Leitao, an ex-Judge of the High Court of Goa. It will be remembered that for some time Senhor Leitao exercised the functions of a District Judge at Quepem, whence he was promoted to a judicial seat in the High Court. No sooner was the news of his elevation made known than very serious imputations were made against his integrity. He was accused of receiving bribes and of selling justice to the highest bidder. An official inquiry was instituted by the other Judges of the High Court, and to their surprise it was revealed that the Senhor Leitao had been so habitually abusing the powers entrusted to him that his judicial proceedings were nothing more than a sham, and constituted an open scandal at Quepem. His dismissal was unanimously recommended, but as the Goa Government could not deal with the case, it was referred to the superior authorities in Lisbon, who have now condemned him, and removed his name from the judicial staff.

THE following is not an American but an English story. At a town on the Lincolnshire coast one day last month a young lady and gentleman rode up to the parish church on a tandem tricycle and in tricycle dress, and having been duly married by the rector of the parish, remounted their tandem and rode off in the most commonplace fashion. The same couple are still frequently to be seen riding tandem in the district where they reside, and they fondly imagine that no one knows of their having given a new era to the tricycle as a wedding carriage. It is suggested that there is no reason why bridesmaids and groomsmen should not attend in the same style. It would certainly be more economical than the general system of carriages and pairs.

IT is rather unfortunate for Londoners, remarks one of the Metropolitan journals, who are in the habit of dining at hotels that they should be perpetually reminded of the food they eat. The stories afloat about the secret life of hotels, if written in a narrative form, would be sufficient to prevent any man ever eating anything outside his own house again. The latest horror comes from Leadenhall-market, that home of fur and feathers. A certain individual had the privilege of looking into one of the drawers in a game-dealer's stall, and found it crammed with grouse in such an advanced stage of decomposition that the birds seemed useless for food. He expressed his opinion to the proprietor of the stall that the birds were only fit to throw away, but that worthy said, "By no means. We pluck and truss them and send them to the hotels, where the cooks dip them into a solution of permanganate of potash, and this entirely removes everything objectionable."

A REALLY practical suggestion is made by Mr. J. E. Hasting, the well-known English ornithologist, on the question of wild birds protection in India. He points out that when legislation on the subject took place at home, there was considerable opposition to the measure introduced. If that was the case, says he, in a small country where the number of birds known amounts only to about 400 (including about 130 rare and accidental visitants), how much greater will it be in India, where the number of recognized species at the present time, upon the most moderate computation, is over 1,600? He suggests that if Mr. Elliot and those whom he represents seek for skilled advice, the better course will be to secure the appointment of a committee of Indian ornithologists, such as Mr. Hume, Mr. Davidson, the Messrs. Marshall, Mr. Blanford, Major Bingham, Lt.-Colonel Godwin Austen, and Major Butler, who have resided in and know the country, or great portions of it, who are well acquainted with the habits of the birds, and who are well qualified to say what species should or should not be protected.

LISZT is a person about whom "stories are told." The following reaches the *Pall Mall Gazette* from Paris :—About 1836, when the great pianist was rapidly becoming the rage, he arrived at the town of X. and advertised a concert. The good people of X., it seems, had never heard of him. Seven persons only turned up. Liszt, on entering, took a rapid glance at the empty benches, and then addressed his seven auditors as follows :—"Ladies and gentlemen, I am much flattered by your attendance here to-night, but this town-hall feels uncomfortable ; the atmosphere stifles me ; if you are agreeable, I will get the piano conveyed to my hotel, and there I will play through the programme to you quite privately." The proposal was well received. Liszt was better than his word : he not only played wondrously, but entertained his audience with an elegant champagne supper. The next night he announced a second concert. The town-hall was crammed to the doors : Liszt comes on, plays a couple of pieces contemptuously, then leaves the hall—leaves the bewildered town of X., and has never been seen there since.

THE War Office authorities seem at last to have solved one of the most intricate problems of the day. For some time past there has been an almost universal call from the thirsty public for some kind of alcoholic drink which may be imbibed without producing the terrible moral and physical effects attributed to spirituous liquors. Attempts have from time to time been made to introduce drinks alleged to meet this requirement ; but they have as a rule proved utter failures, owing to the absence of any exhilarating properties in these substitutes for stimulants. It remained for the Royal Victualling Yard at Deptford to find something exactly suited to the exigencies of the situation. The chief stimulant for ordinary use among the men engaged in the Nile flotilla, it is stated, will be rum, which is being sent out in large quantities from Deptford, but not in a condition to which objection could be taken by the most enthusiastic apostle of total abstinence. By a special process the heavy portion of the alcohol is got rid of, and that of lighter specific gravity is retained, thereby rendering the rum "light and exhilarating instead of stupefying and intoxicating." The scientific treatment to which the rum is subjected removes, it is alleged, with the heavy spirit, all its irritating properties, and renders the troops who drink it "cheerful without being excited and quarrelsome." To the brutal husband, a house paper remarks, this Nile rum would be simply invaluable, not only for his own sake, but also for that of his wife and family ; and the sooner the secret of its preparation is made known to the public the better.

An inquest was held by the Coroner, Dr. Blan ey, yesterday, at the J. J. Hospital on the body of Henry McMillan, aged 30 years. Witness saw him alive at 8 p.m. on the 20th instant in the Prince of Wales Hotel, in the Fort. He said he had been drinking and did not feel well. He was tremulous. Witness saw him drunk once. He was not in the habit of taking opium, and was always in good spirits. Ardaseer Cursetjee a proprietor of the Prince of Wales Hotel gave evidence that deceased slept in his hotel on the nights of the 17th, 19th, 20th, and 21st instant. After some evidence as to the finding of the body and the cause of death, the jury returned a verdict to the effect that the deceased had committed suicide.

HOW CHOLERA IS SPREAD.—At the Fort Police Court yesterday, Megjee Hirbam was charged before Mr. C. P. Cooper, at the instance of Mr. Glover, a Municipal officer, with not having complied, after being cautioned for not doing so, with a Municipal notice requiring him to limewash his house in Koomberwada. On the 25th ult. he had been prosecuted for not having complied with a notice required him to limewash his house, as a fatal case of cholera had occurred there. On that occasion he had been fined Rs. 10, and Rs. 3 daily till the work should be completed. The accused had ignored the notice, and it was only on the 7th of this month that he commenced the work. His worship fined him Rs. 10.

BIRTHS AND DEATHS IN BOMBAY.—The total number of deaths registered during the week ended on Tuesday, 21st October, was 516, being 7 more than in the previous week, 149 more than the week ending 23rd October, 1883, and 109 more than the mean of the corresponding period in the preceding five years. During the week 296 births were reported in the different districts of the city. The rate of mortality per 1,000 of population per annum was 30·16, calculated on the increase of population since 1881. There were 119 deaths from remittent fever, 19 more than the previous week, and 58 more than in the same period last year. The deaths from diseases of the respiratory system, diarrhœa, and dysentery were last week 64, 24, and 16 respectively, as compared with 56, 30, and 6 in the same time last year. Five deaths from cholera were registered last week as compared with 10 in the week previous.

ASSAULTING A BUGGYWALLAH.—At the Fort Police Court yesterday, Edwart C. Blewett, a European, described as a clerk, but now out of employ, was placed before Mr. C. P. Cooper charged with grievously assaulting a buggywallah. It was stated in court that the accused had hired a buggy, but failed to pay the driver, and when he was bothered for payment he lost his temper and struck the man a severe blow on the face, fracturing his nose. The man was taken to hospital. The accused was admitted to bail, and the case was adjourned for a fortnight. Before leaving the court the accused, who seemed to feel his position, desired his worship to take up the case as early as he could. The fact was that the man had asked him for his fare, and he pushed him. The man accidentally dashed against a bannister, and thus sustained his injuries. In the hospital he admitted as much before a number of persons, who were anxious about the matter, and thought that the man would be able to leave hospital in a day or two. His worship said as soon as the man was discharged from the hospital he would proceed with the case.

ALLEGED SERIOUS DEFALCATIONS BY A EUROPEAN.

At the Fort Police Court yesterday, before Mr. C. P. Cooper, Chief Presidency Magistrate, Walter B. Williams, late manager of Latham and Company, was again charged with criminal breach of trust in respect of a sum of Rs. 4,000.

Mr. Chalk conducted the prosecution ; the accused was undefended.

His worship, in delivering his decision, said.—In this case, upon the charge which you allege that the accused has been guilty of criminal breach of trust, it is necessary to prove dishonest misappropriation. There must be proof of the receipt by the accused of the moneys which you allege that he has not accounted for. Now, there is no admission made by the accused that he actually received these moneys that are deficient, and the question I have to consider is whether there is the necessary proof of the receipt of these moneys by him. The case appears to have been left in sole charge of the firm. The only book of accounts that has been brought, as regards the accused, is the cash-book. I myself have looked somewhat into it, and I must say that it does not appear to be kept at all in the way a book of that kind should be kept by anybody who conducts his business in a proper manner. It appears to me, looking at the book, that that book has not been totalled or balanced from November 8, 1881, to the 3rd May, 1883. The accused appears to have taken charge of that book on the 1st June, 1883, and there appears to be then a balance in hand ; but there are four particulars given of what that balance was, and it would appear doubtful from the evidence why part of that balance did not actually consist of the Rs. 100 from Mr. Lund which was alluded to in the case. The accused, after his book charge of the cash-book, appears to have kept the book in the same loose way in which it had been kept for two or three years previously. There appears to have been no check at all in any way as regards this book. If this was the cash-book it ought to have been balanced daily with the cash in the cash-box. That has evidently not been done, and therefore there was really no check, from day to day, in regard to the moneys that were supposed to be in the hands of the accused. Again, the entries in this cash-book appear to have been made not only by the accused, but by other clerks. It appears that on the complainant coming back on one occasion, after a further period of pressure the accused was induced to balance up the cash-book, and on that occasion there apparently was found a large deficiency. The accused denied any knowledge of the money so deficient, and he also denied knowing anything about the moneys of the other two deficiencies that appear in the cash-book on the two other occasions when it was total-led up. He says the deficiency arose from negligence in business through over-work and worry. It is undoubtedly the fact that he neglected the business and was often away from the office, and that at one time he had taken to drink. I must say it appears to me also, on the evidence given in the case, that the accused was quite unfit to carry on the duties with which he was entrusted. I can place no reliance on the entries that appear to have been made in this cash-book by him, kept in the way it appears to have been kept. I am asked from that cash-book to come to the conclusion that he actually received the moneys that appear deficient from the entries ; but I must say I am not justified in doing so. Before I can be certain that the money deficient actually came into the hands of the accused, I must have clear proof ; and for that purpose I consider it necessary that some accountant should go thoroughly through this book and the other accounts kept in the office. I think it probable that if this were done the position of these accounts would be much altered from what the complainant appears to think their position is. The complainant himself admits that he has not checked these entries with the other accounts in his office. For these reasons, upon the evidence already given, I certainly do not feel justified in framing a charge against the accused ; and I must discharge him. But at the same time, I can only say it is the duty of the complainant, if he believes that the accused has committed any criminal offence, to have the accounts looked through by a competent accountant, and if after that he is satisfied he does have received moneys for which he has not accounted, to apply to me, and it will be my duty to inquire further into the case.

To the accused.—You are discharged.

MEETINGS OF PUBLIC COMPANIES.

THE SOONDERDAS SPINNING AND WEAVING MILLS COMPANY.

THE twelfth annual general meeting of shareholders of the company was held yesterday at the registered office, 3, Tamarind-lane, Mr. Vundravandas Purshotumdas, chairman of the board of directors, presiding. The following report of the directors for the year ending 30th June, 1884, was taken as read :—

From the balance-sheet and statement of profit and loss account it will be seen that the profit for the year amounts to Rs. 54,524-10-6, and the directors have paid an interim dividend for the half-year ending 31st December, 1883, at Rs. 40 per share and Rs. 10 per quarter share, which absorbed Rs. 26,000 ; and they now recommend a further dividend for the second half-year of Rs. 30 per whole and Rs. 7½ per quarter share, which will amount to Rs. 19,500 ; to new boilers account, Rs. 4,856-12-4 ; the balance to be carried to next year's account, Rs. 4,187-14-2,—total Rs. 54,524-10-6. It is evident from the foregoing result that so far it is not satisfactory, but the uncertain condition of the foreign trade on account of the Franco-Chinese difficulties, coupled with the continued high price of cotton and low price of yarn, greatly tended to diminish the profits of the company.

The audited accounts, balance-sheet, &c., with the directors' report, were received and adopted. A dividend of Rs. 30 per whole, and Rs. 7½ per quarter share, for the second half-year ending 30th June last, was declared ; and the amounts recommended by the directors were carried to the boilers' and next year's accounts. Messrs. Vundravandas Purshotumdas and Cursetjee Manockjee Setna, who retired by rotation, were re-elected directors. Messrs. Framjee Temooljee and Dwarkadas Oodowjee were appointed auditors at a remuneration of Rs. 150 each. The proceedings terminated with a vote of thanks to the chairman.

THE KURRACHEE ICE COMPANY.

THE fourth ordinary general meeting of this company was held yesterday afternoon at Tamarind-lane in the Fort, under the presidency of Mr. A. W. Forde. The following report was submitted to the meeting :—

The board now submit their report for the year ended 30th June, 1884, together with the audited accounts of the company for the same period. The receipts amount to Rs. 16,098-2 and the disbursements to Rs. 12,333-6-11, leaving a profit of Rs. 3,752-11-1 on this year's working. This profit is sufficient to wipe off the losses incurred previously, and there now remains the sum of Rs. 40-11-5 at credit of the profit and loss account. The following is a recapitulation of the working of the company since its foundation :—Period ending 30th June, 1881, profit Rs. 77-13-2 ; year ending 30th June, 1882, loss Rs. 1,365-12-1 ; year ending 30th June, 1883, profit Rs. 149-7-2 ; year ending 30th June, 1884, profit Rs. 3,752-11-1. The factory has been let for the current year at an increase of Rs. 3,200, over the rent realised last year, and if all goes well, there should be sufficient profit on 30th June, 1885, to pay a dividend at the rate of 5 per cent. per annum. It will be seen from the foregoing remarks that the company is steadily gaining ground, and the board trust that the advance will continue, and the business eventually become highly profitable. The negotiations with the General Ice Factory Company, Limited, referred to in last report, for a preference in the profit, have resulted in nothing, as your board's decline to admit the claim of Sir Rao Wasudev Burve. To this the Bombay Government have replied that the Karbharee in question must first resign, when the confirmation of his appointment will be taken into consideration.—*Poona Observer.*

The board now recommend the payment of a dividend at the rate of 5 per cent. per annum, and have also presented to fill the vacancy thus caused. Owing to the decease of Mr. Cooverjee R. Mody, one of the auditors of the company, during the past year, it became necessary for the board to appoint another auditor in his place, and accordingly Mr. Nesserwanjee Sorabjee Jamsetjee has been appointed, subject to the approval of the shareholders at the forthcoming general meeting.

On the motion of the chairman the report was adopted. It was agreed that Mr. A. W. Forde be re-elected director, and chairman of the board of directors, for the ensuing year. Resolutions were also passed confirming the appointment of Mr. N. S. Jamsetjee as auditor and appointing him and Mr. N. S. Symons as auditors for the ensuing year at a remuneration of Rs. 50 each. The meeting concluded with a

tiff, besides the conditional promise quoted erning the 5th issue, and defendant's letter ed C which must be taken in its plain ning, there being no ambiguity patent in it. fendant deposes that in the end of September or October 1883, he got frightened at what might pen and asked plaintiff to marry him then and re, privately, but plaintiff refused." His honour ted statements in such finding from defendant's letters at the time. His honour marked that defendant in a letter written to laintiff on New Year's Day last, stated that he oke off his engagement because he discovered that laintiff had deceived him and had not told the ruth. "Plaintiff according to her admission did ay and write things which were untrue. She xcuses herself, by saying she invented stories to make defendant jealous! but this excuse will cover all the fictitious statements she de. Defendant's discovery of plaintiff's falling s, however, not newly made when the engage- at was broken off in his letter marked. fendant says, "I have found you out again and ain telling stories." Defendant in his cross- amination also admitted that he was aware of laintiff's conduct before he promised to marry her. He says "as far as I can recollect I took liberties with the plaintiff the first day I met her. I do not mean that I corrupted her; she was corrupted long before I asked her to meet me; although she was corrupted, my intentions were honorable." Under these circumstances, his honour concluded, "the reason given by defendant for breaking his promise is neither good nor sufficient and the evidence has shown nothing in plaintiff's conduct after defendant promised to marry her that would justify defendant in withdrawing from his engagement. Defendant made the promise with his eyes open, and must now take the consequence of breaking it. At the same time some allowance should be made for defendant. He is not alone for plaintiff's disgrace. Her own family are answerable for allowing her to go about as she did when she became intimate with the defendant. and in my opinion the circumstances of the case do not call for heavy damages. Defendant will pay to plaintiff Rs. 500 with costs on the amount awarded."
